5 1/4" 3-Way
Graphite Woofer
Center Channel

S8
8" Floor Standing
Subwoofer

This is it. The time is now, and you're ready for a hot new system. We're ready too, with the AW400 Cinema System as it has performance written all over it.

Take the AW400 near-field monitors, for example. They are small enough not to get in the way, but they put out truckloads of sound, thanks to 4" polypropylene woofers and 3/4" supernil soft dome tweeters. With our CC525 center channel speaker, you get crisp dialog and special effects. It gives you a killer combination with two 5 1/4" graphite woofers, a 3" graphite midrange and a 1" aluminum dome tweeter. Put all of that high-end performance with the S8 powered sub and you'll know this is a system worth bragging about.

You won't have to say too much, though. Once your friends hear your new Cinema System, they'll think you've just worked a miracle.

Quality-built, of course. Exactly what you'd expect from a premium brand like Proficient.

Cinema System Specifications

AW400blk

CC525

Description	4" Two-Way Monitors	5¼" Three-Way Center Channel
