How to
Search, Playback, and Export
with
EZ Search 2.0

Scan for
QUICK HITS
streamlined tech tutorials

How to use EZ Search 2.0:

Click on the start menu.
(top right of the screen)

Choose "Search and Export" option.

Find and double-click to choose the date of the event and specific camera needed.

EZ Search divides the day into 24 hour intervals.

Click video thumbnail once to preview on side panel.
(preview appears on left side of screen)

Double click video thumbnail to divide hour into 60 one-minute clips.

Locate the event in the grid of video.
(you can click on video once to preview the minute in side panel)

How to Playback:

Click the play button icon to view recorded video.

How to Export

12:30A
12:00A
11:30P
11:00P
10:30P

On the timeline on the left, click and drag mouse to create box selecting the time period the event occured in.

Export

Click "Export" from the menu bar at the top and "Export" again.

Select Device

Choose your external storage device from the dropdown menu and export.
