Thin-Bezel Architectural Speakers

C641 6½" Ceiling Speakers

The C641 is a perfect choice for sweet sound at an affordable price. Excellent sensitivity and high power handling make the C641 a very capable compact speaker.

The 6½-inch graphite-cone woofer plays down to 32 Hz. A 1-inch aluminum-dome tweeter gives the C641 an especially sweet and detailed sound. The tweeter pivots so you can direct the sound wherever you need it.

- 6½" Graphite Woofers
- 1" Pivoting Aluminum Dome Tweeters
- +3dB Bass & Treble Contour Switches
- Power Handling: 125 Watts
- Frequency Response: 32Hz - 22kHz
- Impedance: 8Ω

With 92 dB sensitivity, the C641 puts out an incredible amount of sound. It has an 8-ohm nominal impedance, making it easy to drive with any amp.

And, the new thin-Bezel design eliminates the wide plastic flange that surrounds most ceiling and inwall speakers. The look is sleeker and much more nuanced, allowing the speakers to blend in better in walls and ceilings.

- Sensitivity: 92dB 1W/1m
- Thin-Bezel Grilles held by Neo Magnets
- Diameter x Depth: 9¼" x 3⅝"
- Ceiling Cut Out: 8¼"
- 10 Year Warranty
- U/M: Pair
