

WEATHERPROOF RJ45 Coupler Housing

p/n 744

Couplers sold separately

Extend any RJ45 cable run while protecting from the elements

Our new rugged housing protects almost any RJ45 coupler from dust and splashes. Dual locking lugs keep the housing securely closed while dual center mounting points allow the housing to be secured with screws or cable ties. *(coupler not included)*

- IP64 - sealed against dust and splashing water
- Cat 5e/6/6A compatible with appropriate coupler
- Full rubber liner and dual locking latches
- Center mounting points to secure to a surface

Clamshell design works great with our Keystone Couplers shown below
