

Ring Smart Lighting Solar

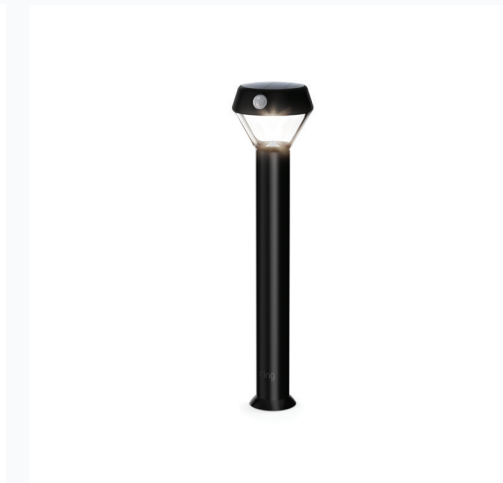

Ring Smart Lighting Solar is an expansion of the Ring Smart Lighting line that brings users smart outdoor lights powered via solar power.

Ring Smart Lighting Solar devices are motion-activated and, with a Ring Bridge, they allow users to receive motion notifications, turn their lights on and off remotely, adjust the brightness and motion sensitivity, and set schedules, all right from the Ring App.

Ring Smart Lighting Solar Floodlight

Ring Smart Lighting Solar Steplight

*Ring Bridge required for smart controls and use in the Ring App.

Like similar devices at this stage in product development, the Ring Smart Lighting Solar Floodlight, Solar Pathlight, and Solar Steplight have not been authorized as required by the rules of the Federal Communications Commission. The Ring Smart Lighting Solar Floodlight, Solar Pathlight, and Solar Steplight are not, and may not be, offered for sale or lease, or sold or leased, until authorization is obtained.
