Keyscan LUNA™ SDACSKT Single Door Access Control Smart Kit

The combination of single access control unit, one reader, 10 credentials, power supply and comprehensive software, brings affordable access control security, accountability, and reporting to small businesses for a fraction of the cost of enterprise systems.

To begin, simply download Keyscan LUNA software. Tailored solution for 1-6 SDAC controllers; no charge download from dormakaba.us. Keyscan LUNA is a new comprehensive software package designed to function with Keyscan LUNA solution for small access control installations. One software database can power up to 6 Keyscan SDAC access control units.

K-SMART3 13.56MHz Reader Series Keyscan Smartcard BLE Reader

This Keyscan BLE-ready smartcard reader is a 13.56 high frequency reader that offers users the convenience of using smartcards and the new K-BLE mobile credentials. It features additional support for a built-in "heartbeat" that monitors the reader communication advising end-users if any type of optional reader tamper or if the reader cable is cut. May not work with non-Keyscan access panels without purchase of optional K-PC2 programming card to disable enhanced features. Suitable for indoor and outdoor applications. Keyscan ACU requires System Firmware V 9.39 or higher for enhanced feature.
