

# NEW SANUS® ECOSYSTEM™ COMPONENT SERIES RACK ACCESSORY

## Introducing an innovative solution for low-voltage power supply

The new SANUS EcoSystem™ Component Series rack accessory is a fully customizable solution that serves as the single power source for all low-voltage equipment in an AV rack. Start with the MultiVolt Power Supply. This component features switchable outlets, 5 volt USB ports and 12 outlets. A thermostat kit is also included to monitor rack temperature and automatically activates fans when temperature reaches 85 degrees. Available accessories include LED lighting, fans, temperature gauge and additional cables. When used together, the SANUS EcoSystem will save time, space and provide an aesthetically perfect AV rack.

CFR2136 shown

Easily turn front task light and rear work light on and off

Front side 5V USB port, 12V always on and front light connections provide added convenience

Light Switches

Additional Power

5V USB Ports

12V Lights Only

Always On 12V Power

Thermostat Controlled

Thermostat

Easily connect up to three components with USB cables

Add front mounted 1U task light to illuminate rack components and rear mounted work light for easy viewing while working within the rack

Incorporate the temperature gauge into the system for an easy-to-read digital temperature readout

Keep components cool with available fans, which include 1U ultra quiet fan, 3U ultra quiet fan and 3U high volume fan

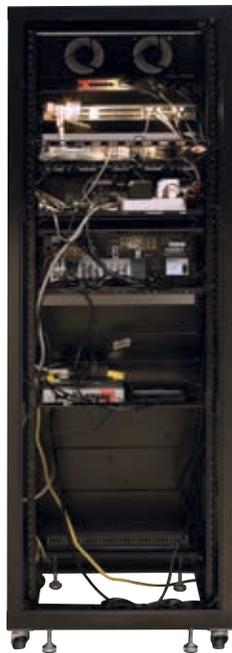

Included thermostat kit monitors the rack temperature and automatically activates fans when temperature reaches 86°F (±5°F) then turns off again at 72°F (±7°F)
