Recessed Power/Low Voltage TV Box™ KIT

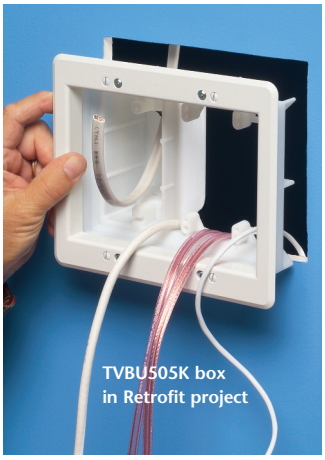
NEW! more on reverse

All You Need to Mount a Flat Screen TV Flush-to-the-Wall

Arlington's recessed non-metallic combination power and low voltage TV BOX™ Kit includes all you need to mount a flat screen TV secure, and flush against a wall. The box offers power in *one side* and low voltage in *the other* for Class 2 wiring of satellite or cable TV, speakers and more.

The job looks great! Plugs and connectors stay inside this two-gang box; wires stay hidden behind the wall.

- For new construction or retrofit, in walls up to 1-1/2" thick
- Boxes screw-mount to stud in new construction – Mounting wings hold box securely against the wall in retrofit projects
- Kit includes non-metallic two-gang combination box with paintable white trim plate, brush-style cable entry device, two-gang decorator-style receptacle and wall plate, installation screws, and NM cable connector
- Cover available for unused box
- UL/CSA Listed



Power/Low Voltage TV Box Kit for New Work or Retrofit

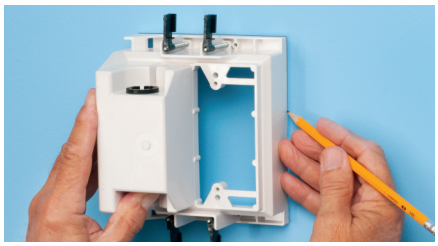
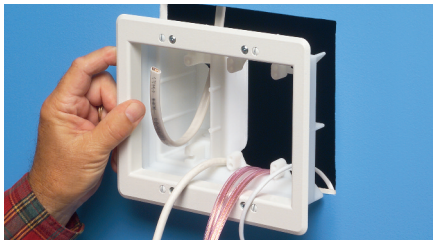
Recessed Non-Metallic TV Box™ KIT

Power/Low Voltage Combination Box for New Work or Retrofit

RETROFIT - Two-gang TVBU505K

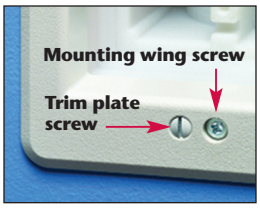


1 Use enclosure ***(without trim plate)*** as a template for opening. Cut 5-1/4" x 6" hole.



2 Cut drywall. Attach trim plate to box (screws supplied.) Pull wire/cables. Install assembly in hole.

3 Tighten mounting wing screws to pull the box securely against the wall.



NEW CONSTRUCTION - Mounts to stud

1 Attach box to stud using supplied screws. Use tabs on box for proper positioning of box depth.

2 Positioning tabs are set for 1/2" and 5/8" drywall.

Install NM cable connector. Pull wires.

3 After wall surface is installed, wire receptacle and low voltage devices. Attach trim plate (screws provided.) Tighten mounting wing screws – if desired – for added support.
